

Membership Package and Application Agreement

Membership period: from 1 August 2022 to 31 July 2023

- **What are SWIPO AISBL key objectives?**

Based on the Commission's policies SWIPO AISBL's main objective is to reduce the risk of vendor lock-in by cloud service providers in light of the increasing importance for the [European Data Economy](#). SWIPO Working Groups were created in 2018 as a multi-stakeholder forum facilitated by the European Commission, in order to develop voluntary Codes of Conduct for the proper application of the Free Flow of Non-Personal Data Regulation / Article 6 "Porting of Data".

The aim of the self-regulatory work is therefore to make the European market for cloud services more fluid and to allow large and smaller companies as well as new market entrants to compete fairly and efficiently. Two Codes of Conduct have been created, one addressing the Infrastructure as a Service (IaaS) market, the second addressing the Software as a Service (SaaS) market.

- **What is SWIPO AISBL?**

For the implementation phase, the SWIPO non-profit Association (AISBL) was founded by Notarial Deed on 18 May 2020. The AISBL is the non-profit legal entity, under Belgian law, owning and publishing the Codes.

- **Who can become SWIPO AISBL Member?**

Any organization using or providing Cloud services can become a member and sign up as Cloud Service Provider (CSP) or as Cloud Service Customer (CSC). Any CSP can also declare adherence to the Codes of Conduct to prove to the market their services and/or products are compliant with the SWIPO Codes of Conduct.

- **What is it in it for me, as a Member?**

- Promote to cloud providers and cloud users the importance of addressing vendor lock-in by adopting the SWIPO code of conducts addressing data portability and cloud switching
- Actively contribute to the evolution of these codes and be part of the SWIPO AISBL governance
- Be part of a network of users and providers, share knowledge and expertise and get first-hand access to information
- Get "member" only 50% discount on Adherence declarations.

- **How will SWIPO support our industry?**

- Increasing visibility of our solutions from a self-regulatory approach and implementation
- A common voice to represent the Cloud Service industry on Switching and Porting
- Collective advocacy work to create a supportive regulatory and economic framework

- **What do I have to invest as a member?**

An industry association is driven by the work of its members. Members are encouraged to take active part in the work of the committees or working groups and to contribute to the work of the association thus supporting it in the realization of its objectives.

- **How do I become a Member?**

Further below are the specific rights and obligations, as well as member categories and fees.

- **Who is Governing SWIPO AISBL?**

The General Assembly of SWIPO AISBL is the highest authority and monitors the activities of the Executive Board which will pursue day to day preparation and decision making for the entity. The SWIPO AISBL has again created two Sector Groups, each with their own Sector Board: IaaS and SaaS.
